

## Description:

With a fixed operator platform and engine options of 20 or 23hp the RT Stand on Track Trencher attacks the ground and the job with the power to meet the challenge. Trenching up to 48" deep and 6" wide these trenchers will take on anything that is thrown at them. The RT trenchers feature a .11" wide track that creates 241 square inches of footprint on each side of the machine. This gives outstanding traction on wet soil, clay, sand, or steep terrain while softening the impact on any existing landscaping. The track absorbs most of the impact caused by rocks, roots, or other obstructions in the soil. The RT features a weight advantage that improves traction, reduces impact on the operator, and provides stability. All models feature electric start.

With a fixed operator platform and 20hp Honda engine the RT stand on trencher has the power to meet the challenge. Fitted with a 36" boom and 4" wide Comboshark chain.

The RT features unique control adjustment that uses rod linkage instead of cables.

**Product Code: BAR2036T H 4 S**

## Specification:

- Engine: Honda GX630 Electric Start
- Trenching Width: 4"
- Trenching Depth: Variable - Max 90cm
- 
- 
- 
- 
- 
- 
- Dimensions: 274 x 90 x 142 cm (LxWxH)
- Weight: 766kg
